An artificial eye is approved if an enucleation occurs and replacement is necessary to maintain contour of the face.

Purchase versus Rental

If equipment is needed temporarily, it may be more cost effective for AmeriHealth Caritas Louisiana to pay for the rental of the equipment. Consideration will be given to the length of time the equipment is needed, to the total rental cost for that period of time, and the purchase price of the item. Equipment will be purchased, not rented, if the total cost of rental exceeds the purchase price.

NOTE: Rental reimbursement – The provider cannot charge for features on equipment not medically required by the recipient's condition.

Purchasing Guidelines – Equipment

AmeriHealth Caritas Louisiana requires that all DME be provided to an eligible recipient with a minimum of a one year DME provider warranty. Providers who make or sell prosthetic or orthotic items must provide a warranty which lasts at least 90 days, from the time the item is delivered to the recipient. If during those 90 days, the item does not work, the manufacturer or dealer must repair or replace the item. AmeriHealth Caritas Louisiana will not reimburse for replacement parts or repairs to the equipment.

AmeriHealth Caritas Louisiana reimbursement includes:

- All elements of the manufacturer's warranty.
- All routine or special equipment servicing, to the extent the same servicing is provided to non-AmeriHealth Caritas Louisiana members.
- All adjustments and modifications needed to make the item safe, useful and functional for the recipient during the entire first year (including customized wheelchairs).
- Delivery, set-up and installation of the DME by trained and qualified provider staff, in the area of the home where the equipment will be used or the appropriate room within the home.
- Adequate training and instruction provided to the recipient or the recipient's responsible caregiver by the provider's trained and qualified staff, in a language understood by the recipient or caregiver regarding the manufacturer's recommendations for the safe, sanitary, effective, and appropriate use of the item; and
- Honoring the required one-year provider warranty for all requests or prescriptions requesting equipment repair made on or before the 366th day of service.

Providers cannot disregard a recipient's requests for warranty equipment repairs or modifications and may not delay needed repairs or modifications, otherwise permitted by DME policy, until the provider's or manufacturer's warranty has expired.

Provider Responsibilities – Rental Equipment

When rental equipment is furnished to a recipient the provider must:

- Ensure and maintain documentation on file that the equipment is routinely serviced and maintained by qualified provider staff, as recommended by the product manufacturer;
- Repair, or replace all expendable parts or items, such as masks, hoses, tubing and connectors, and accessory items necessary for the effective and safe operation of the equipment;
- Substitute like equipment at no additional cost to AmeriHealth Caritas Louisiana if the equipment becomes broken because of normal use while the original rental equipment is being repaired;
- Replace equipment that is beyond repair at no additional charge and maintain documentation of the replacement;
- Maintain documentation that is signed and dated by both the provider and the recipient or recipient's responsible caregiver at the time of delivery, which attests to the fact that instruction has been provided by trained and qualified provider staff to the recipient or caregiver regarding the recipient's or caregiver's responsibility for cleaning the equipment and performing the general maintenance on the equipment, as recommended by the manufacturer; and
- Maintain documentation that is signed and dated by both the provider and the recipient or recipient's responsible caregiver, which attests that the recipient or the caregiver was provided with the manufacturer instructions, servicing manuals, and operating guides needed for the routine service and operation of the specific type or model of equipment provided.

Limitations for Replacement of Equipment

AmeriHealth Caritas Louisiana will **not** replace equipment that is lost, destroyed or damaged as a result of misuse, abuse, neglect, loss, or wrongful disposition of equipment by the recipient, the recipient's caregiver(s), or the provider. At a minimum, examples of equipment misuse, abuse, neglect, loss or wrongful disposition by the recipient, the recipient's caregiver, or the provider include, but are not limited to the following:

- Failure to clean and maintain the equipment as recommended by the equipment manufacturer;
- Failure to store the equipment in a secure and covered area when not in use; and
- Loss, destruction or damage to the equipment caused by the malicious, intentional or negligent acts of the recipient, the recipient's caregiver, or the provider.

If equipment is stolen or destroyed in a fire, the provider must obtain, in a timely manner, a completed police or insurance report that describes the specific medical equipment that was stolen or destroyed. The police or insurance report must be submitted with the new prior authorization request.

AmeriHealth Caritas Louisiana may replace equipment when the recipient's medical necessity changes. The provider must submit the documentation required to justify the purchase of the replacement equipment.
