

You are invited!

Treatment Planning, Clinical Documentation and ROI Training

Join us for training.

Event description:

AmeriHealth Caritas Louisiana is facilitating a Treatment Planning, Clinical Documentation, Release of Information, Informed Consent, and Member Rights/Responsibilities training for behavioral health providers at no cost to the providers.

Event objectives:

- Identify the components of a treatment plan
- Explain what SMART Objectives are and apply the concept when writing treatment plans
- Identify the components of clinical documentation
- To be able to identify the elements of an authorization for release of protected health information form.
- To list the elements of informed consent.
- To understand the member's rights and responsibilities.

Appropriate for:

Psychiatrists, Psychologists, an advanced practice registered nurse (APRN), who is a clinical nurse specialist in psychiatry or a Nurse Practitioner (NP) certified in psychiatry or mental health nursing, LPCs, and LCSWs

Educational credits:

Although pre-approved CEUs are not available, ACLA will provide Certificates of Attendance to verify completion of the training for attendees to submit to their licensing board for post-approval consideration.
